### **Employee Awards**

Paul C. Heck, of the Business Administration Department was honored as the April 2011 Employee of the Month.

### **Executive Session**

Commissioner April asked General Counsel if an Executive Session was needed. General Counsel responded that no executive session was needed.

### **Executive Report**

Commissioner April asked for the presentation of the Executive Report. Mr. Mueller advised that each Commissioner had a copy of the Executive Report for April at their place; however, he would like to yield the floor to Commissioner Devine, Chairman of the Audit Committee, to give a brief report on the 2010 Financial Audit. Following Commissioner Devine's briefing, Robert Hutchins, of Hutchins, Farrell, Meyer & Allison will provide the Board with a brief overview of the 2010 Financial Audit.

Commissioner Devine stated that the Audit Committee had met with the Auditors on March 28, 2011, to review the completed 2010 Financial Audit, Management Letter and Management Response. He commended the entire team; SJTA's Finance Department, the Audit Committee members and the Auditing Firm, each for their professionalism and the efforts put forth to produce this report. He further stated that from the Management Letter standpoint, the findings were not only few, but nominal, and that the necessary improvements had already been implemented. He also advised of our ongoing practice of internal audit reviews and direct follow up with the Audit Committee. Commissioner Devine advised that the Audit findings were presented to the Finance Committee members during the April 5, 2011 Committee Meetings. He then introduced Robert Hutchins to present the Audit highlights to the Board.

Mr. Hutchins reiterated Commissioner Devine's comments regarding the successful Audit engagement and commended the team for their involvement. He stated that this report to the Board is the completion of the required communications with regard to the General Purpose Financial Statement Audit. He stated that the process began with a meeting with the Audit Committee to discuss any concerns that they may have had and the timeline. An audit plan was developed and field work began. At the completion of the field work an exit conference was held with the Executive Director and Director of Finance to review the management letter which stated their comments. He expressed that the exit conference was successful as all were in agreement with the comments and the required action. Mr. Hutchins advised that the firm was in agreement with management's policies and procedures. They accounted no difficulties in dealing with management or commissioners. He stated that no other issues presented themselves, including material weaknesses that would need to be communicated to the Board. He stated that one of their significant responsibilities is to put together these comments to help the SJTA operate more efficiently or implement accounting policies and estimates that are beneficial to the financial statements. He stated that the comments from the confidential management letter were minor in nature and related to the operating efficiencies. He added that each comment has already been addressed and implemented by management.

He then directed the Board to the independent auditor's reports. The first report contained the auditors unqualified opinion that the financial statements are fairly presented and that the audit was conducted in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. The second report pertained to internal controls over financial reporting and compliance. He advised there were no incidents of non-compliance or other matters that would be required to be reported under government auditing standards.

Mr. Hutchins then directed the Commissioners to the Statement of Revenues, Expenses and Changes in Net Assets. He advised there was a significant decrease in toll revenue attributed to the decrease in casino traffic. This decrease was partially made up by the Airport, and new service. He stated that

expenditures were up 3 million, and operating income decreased from approximately 24 million to 20 million. He stated that the most significant issue relates to GASB-45. There was a significant increase in SJTA's liability for other post employment benefits and the reason for the change of 18 million is that the actuarial calculations had to be adjusted for current economic interest rates. The other area that increased significantly is the interest expense on Bonds due to a full year of interest expense in 2010 relating to the Bonds that were issued in August 2009. Another change from last year was the decrease in both unrestricted and restricted cash and cash equivalents. These are primarily due to the construction of projects that were funded with the 2009 Bonds. He stated that most of SJTA's cash was put into construction. He then discussed a 20 million derivative instrument liability for the interest rate swaps. He advised it was new this year due to GASB-53 and that the 20 million represents the amount the SJTA would have to pay if the SWAP was terminated at December 31, 2010.

In closing, it was stated that the biggest issues were due to changes in the accounting principles this year, specifically the post employment benefits. Mr. Hutchins' thanked the Board for their assistance with the Audit and asked if there were any questions. Chairman Simpson responded affirmatively. He asked several questions relating to the Central Accounts, the ETC expense increase and Airport expenses. Kathleen Sharman addressed his questions in general; however, she advised him that she would provide him with more specific information following the meeting.

Commissioner April thanked Commissioners Devine and Toscano and Ms. Sharman for their involvement in the 2010 Financial Audit.

**Committee Reports**

Commissioner April asked Mr. Mueller to present the Committee Reports. Mr. Mueller reported that all committees met on April 5, 2011. He stated that Commissioners were briefed on the resolutions being presented this morning as well as the substitute Letter of Credit, an SOP for Personnel Actions, Enterprise Resource Planning (ERP), a Weekly Snapshot Report for the Commissioners, the Annual Report, an Airline Meetings Summary, Airport Garage Design, Solar initiatives, the completion of the Median Cross Over Protection Project, Airport concessions, NJTA's Toll Collection RFP and a contract extension for health benefits.

**Public Response to Agenda Items**

Commissioner April asked the public for comments on any of the agenda items. No comments were made.

**Approval of Bills**

Commissioner April asked Mr. Mueller for the presentation of bills. Mr. Mueller stated that the bills had been mailed to the Commissioners previously for their review and are being presented for their approval. Commissioner April called for a motion to approve the bills. Whereupon, the motion was moved by Commissioner Ripa and seconded by Commissioner Devine, approving said bills. Commissioner April asked the Commissioners for questions on the motion. There being none, Commissioner April requested the Secretary call the roll.
