The SJTA publicly bid its electric power supply (as opposed to using the default BGS-FP tariff) in an effort to achieve cost savings on its electric utility bills. To achieve the best value, the Authority needed to ensure that the bidding process was designed and implemented in a manner that is consistent with its purchasing rules and regulations, provide for a clear comparison of bids to ascertain the lowest cost and maximize bidder participation to drive down the bid price as low as possible. As such, the Authority issued an RFP to select one of the firms from the DCA approved list to provide reverse auction services. Such firm shall have authorization to act on the Authority's behalf to procure the respective authorized suppliers who provide the Authority with the best price advantage by way of this auction. On April 4th and April 5th, 2017, the Authority advertised a Request for Proposals. On May 9, 2017, two proposals were received.
