**RESOLUTION 2018-90 OF THE SOUTH JERSEY TRANSPORTATION AUTHORITY AUTHORIZING THE AWARD OF A CONTRACT TO R.E. PIERSON CONSTRUCTION COMPANY OF PILESGROVE, NEW JERSEY FOR THE PRIORITY REPAIRS TO ATLANTIC CITY EXPRESSWAY BRIDGE 22 (FIRE ROAD)**

As a result of a recent motor vehicle collision, significant damage was done to two (2) reinforced concrete beams and the underside of the bridge deck over the eastbound center line of Bridge 22-Fire Road over the Atlantic City Expressway. Engineering inspections have been conducted, including structural inspections by the Authority's Chief Engineer and its general engineering consultant, Remington & Vernick. Based on the aforementioned inspections, the scope of work for this project includes replacement of the fascia beam. In order to ensure continued safe operation on the Atlantic City Expressway, Remington & Vernick Engineers advised that it was safe to re-open Fire Road northbound and the southbound lanes could be reopened upon the installation of temporary traffic control on the bridge to temporarily close the southbound shoulder. Damage to Bridge 22 prevents the bridge from being fully operational and said repairs are recommended to be completed within 90 days, the Authority has deemed this work a priority/emergent repair. On August 16, 2018, pursuant to the deficiencies and N.J.A.C. 19:2-7.7, which states "when an emergency declared by the Executive Director or his designee exists of a nature requiring immediate services, the Authority shall, by such solicitation as it considers advisable, obtain whatever is necessary to meet the emergency on the most advantageous terms possible under the circumstances," thus the Executive Director has declared the damage to Bridge 22 emergent, and as such authorized an emergency procurement for the priority repairs. The Authority has in recent years utilized a service
